Ecocamp 2021: COVID-19 Safety Overview

Pre-Camp Expectations:

- No fever or any other coronavirus symptoms recognized by the CDC prior to drop-off
- No known exposure to a coronavirus carrier in the two weeks prior to Ecocamp attendance

Safety Monitoring:

- Daily temperature and symptoms check for Glen Helen staff
- Daily temperature and symptoms check during camper drop-off
- Designated quarantine procedures and spaces in the event of a symptomatic individual

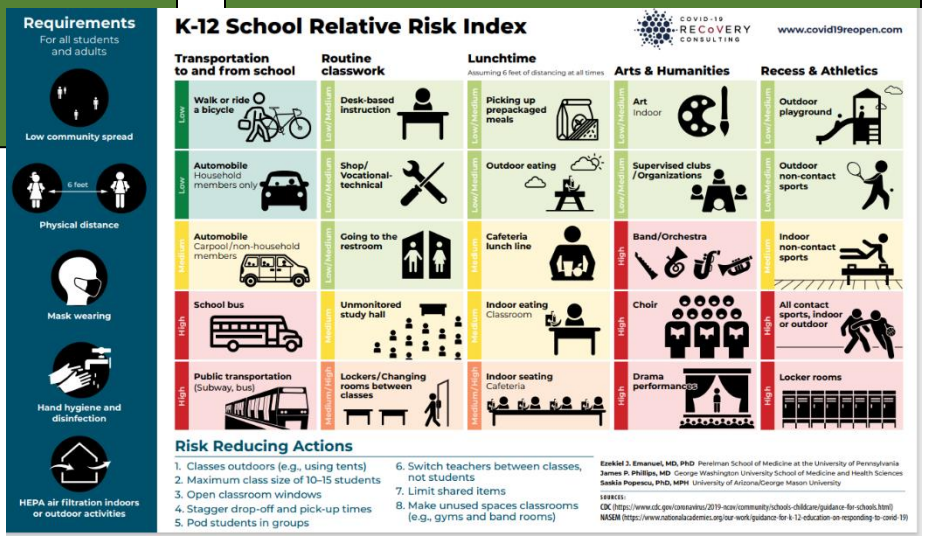
Meals:

- Food will be served by Glen Helen staff or be individually packaged, no family style dining
- As always, accommodations will be made for allergies and dietary restrictions

Guidance: We've assessed our operations and made plans based on recommendations from the CDC, the American Camp Association, the Ohio Dept. of Public Health and the risk index included here:

Program & Operations:

- Small camp groups of 10 individuals or fewer
- No overnight offerings for Summer 2021
- Groups will have their own unique indoor and outdoor activity spaces for the entire week.
- Camp activities conducted outdoors whenever possible
- Social distancing, mask wearing, and personal sanitation practices required and enforced
- Increased cleaning and sanitation efforts throughout all facilities
- Ventilation system upgrades including ionic purifiers

Post-Camp:


- Please contact Glen Helen ASAP should any camper or household members show COVID-19 symptoms within two weeks following Ecocamp attendance
